COME TO SEE US!

THE FAMOUS,
Clothiers and Hatters

Cor Noble & 10th sts,

Anniston, Ala

SENATOR RANSOM, of North Carolina, has been appointed Minister to Mexico.

GALVESTON, Texas, has been shipping cotton to Boston this year, by barge. The saving on cost of transportation, is about one dollar per bale. A few more years, the mills will be in the cotton fields, and the only transportation then will be that of the finished product.

JACKSONVILLE is very much gratified at the expressions which come from all portions of the county in reference to the court house removal question. Anniston will have to wait until she gets several thousand more population than at present before she can get to be a county site.

To have an era of genuine prosperity in this country, it is necessary that the farmers become prosperous. In order that the farmers get out of debt and become prosperous and happy, it is necessary that they adopt the new and improved methods of agriculture. They must adopt the intensive plan of farming. Instead of raising one bale of cotton on three acres of land, they must make one acre produce two bales. Above all things else, we need an agricultural boom in this county. The reason why the REPUBLICAN advocates a county fair is the belief that it can be used as a means to improve the agricultural interests and help the farmers. It must be their fair, and they should come to the front and work it up.

The Commercial Club of Birmingham, has issued an address to the press of Alabama, a copy of which has been mailed the REPUBLICAN. We regret that lack of space forbids its publication in our paper this week. The address calls upon the entire press to lend its best energies to the work—so happily and auspiciously begun—of inducing capital and immigration to our state. The address is an able one, and deserves the careful consideration of every paper in Alabama.

The REPUBLICAN is ready to do all in its power "to create the strongest sentiment possible that capital invested in the development of Alabama shall have every reasonable protection which law, sentiment and a patriotic press can throw around it," and to make our people "feel that an intelligent and thrifty class of immigrants will bring greater blessings to the state than is possible without them."

The REPUBLICAN enters no new sphere of action. This has ever been its work, and shall continue to be, until Alabama takes the position which is hers by nature—as the chief gem in the coronet of the United States of America.

We desire to call the attention of all our readers to the generous offer of the Oxford Lake Line Company, as expressed in the Sam Slim letter this week.

This company, with commendable public spiritedness, agrees to furnish the grounds, buildings and track, at Oxford Lake, for the county fair, which the REPUBLICAN has been so long advocating. The people of Oxford want the fair held at the Lake, and it seems to be the desire of our friends all over Calhoun, to take advantage of this opportunity afforded, to get together, compare the fruits of their labor, and counsel with one another, as to the best methods for the future.

Our Oxford correspondent last week spoke most kindly of the project, and said the people of his city—so soon as they found the whole county would become interested—would do all they could to make it a success. Certainly these good people have already given us an earnest of their good intentions, in tendering us their beautiful, and hospitable little city and its handsome resort.

It is the duty of all our citizens to have a meeting at once, and put the scheme on a sound footing. Let us take the building of the tabernacle as our example, and let our people "come, bringing blue and purple, and scarlet, fine linen, goatskins and badgers skins, silver and brass." Let our women "spin with their hands." Let those who are able "bring the onyx stones, the spice and the oil." Let the offerings of all be willing ones. Let the fair be a success.

The REPUBLICAN stands ready to issue the call, for the meeting suggested by Sam Slim, whenever the people shall direct. Let us hear from them in regard to the place for the meeting and the REPUBLICAN will gladly give notice.

THE REPUBLICAN now has a larger number of galleys filled with the names of subscribers than at any time since the paper has been in existence. New subscribers are received daily. We have ordered new mailing galleys and have room for other subscribers. So send in their names.

The committee to arrange date for the reunion of the Confederate veterans at Houston, Texas, has appointed Wednesday, Thursday and Friday, May 22, 23 and 24 as the time for the next meeting. No doubt the railroads will furnish a very low rate, and the veterans can commence to make their arrangements for the trip.

ABOUT 15 million dollars were spent last year, in the purchase of commercial fertilizers for the cotton fields of the south. The value of the entire cotton crop approximates 200 million dollars. This is about thirteen and one third dollars worth of cotton, to one dollar's worth of fertilizer. The average yield of lint was 191.7 pounds per acre. This is the largest yield per acre, ever raised. In 1890-91 the average yield of lint per acre was 189 pounds.

On Friday of last week three car loads of fat beef cattle passed down the rail road, on the way from Cincinnati to Union Springs in this state. It looks like Alabama might raise enough beef to supply her own demands, but it seems that she does not. We think that the day is not far distant however, when our farmers will examine more carefully the subject of stock raising in all its phases, and will find that there is more money in a few calves and a few hogs along with cotton, than there is in cotton alone.

HERE IT IS. Bonds of the little island Jamaica sell 111. Bonds of British Guiana sell at 167. Bonds of Athol, Mass., sell at 187. Bonds of Detroit, Mich., sell at 197. But then, these sales were made by day—under the sunlight of competition.

Here it is again. United States bonds sell at 101. But this is a sale made in the dark. It is a secret sale—a sale made only with the knowledge, and by the consent, of corrupt president and his old law partner, and the money kings with whom they are associated. This sale is one of "the devil's work." Can such things be, and overcomes like a summer's cloud, without our special wonder?

The REPUBLICAN stands ready to cooperate with the farmers of Calhoun county in any and every effort that will improve the agricultural interests and help the farmer. If they desire that a meeting be called in Jacksonville, Oxford or elsewhere to arrange for the holding of a county fair next fall, we will take pleasure in advertising the meeting, and doing all in our power to make the fair a success. The proposition of the Oxford Lake Line in tendering the use of its property is indeed generous, and we think it should at once be accepted, and arrangements be made for working up and holding the fair. Let us hear from the farmers in reference to calling a meeting to arrange for the fair. To make a fair a success, it is necessary to have the cooperation of the farmers in every portion of the county.

Reports from all over the state say that the recent freeze and snow have no precedent in the history of our country. Even the North came stories of intense suffering and death, to cold and snow. From the West and North west news reaches us that starvation and cold are playing havoc with all animal life. Telegrams from Florida and Louisiana say that millions have been lost by the ravages of winters ruthless breath. How is it in North Alabama? Simply this: We have had a frost, and a snow, and a freeze. There has been so little suffering either among men or beasts that it would be a species of ingratitude to mention it. We have prospects of a better fruit and crop year than we have enjoyed in a decade. We have suffered little, we are benefited much. This is our experience. We are grateful for it. It is another link in the chain of evidence, that is to prove to the world that north Alabama is the haven towards which the capitalist and the home seeker must steer.

We are now showing full line of Spring Goods, in prints, domestic and foreign Ginghams, Percales, Crepons, Outings & many new weaves in cotton goods.

The white wash brush and a barrel of lime might be used to advantage at every home in the county, during the next sixty days.

Congress paid Speaker Crisp a very high compliment when it unanimously instructed him to appoint himself one of the delegates from the house to the international monetary conference.

Rome, Georgia, has secured a seven hundred thousand dollar cotton mill. It is to be built by the Massachusetts cotton mills, of Lowell. This company had propositions from over seven hundred different locations in the South for this mill.

With cotton seed meal at \$10.00 per ton, we are inclined to believe it would be profitable for those of our farmers who have saved cotton seed to use as a fertilizer, to exchange the seed for meal—that is if they can get as much as ten cents per bushel for their seed.

While plans are being arranged for an international silver conference, the silver men of the United States will continue to labor for the free and unlimited coinage of silver. They are not to be put to sleep by the talk of an international agreement.

We acknowledge the receipt of a copy of the minutes of the Alabama press association, which was kindly sent us by Mr. Roundtree, the secretary. The minutes are in pamphlet form, the arrangement and neatness of which, reflects much credit on Mr. Roundtree.

The Republican, of Jacksonville, Alabama, in its issue of January 26, contained a review of the agricultural resources and advantages of the surrounding country. One of the finest herds of Jerseys in the South is in Calhoun county near Jacksonville.—The Southern States.

With the amendments which have been made to the election law, it is to be hoped that we will have no more frauds in the management of elections in Alabama. The time has come when the ballot box stuffers should either quit his meaner, or be given the punishment which the law prescribes.

All that is necessary to have a successful county fair at Oxford Lake next fall is for the farmers of the county to come together and put the ball in motion. The fair would be held for their benefit, and while all classes will help to make it a success, it is desired that the farmers lead off in the organization.

S. M. ADAMS, chairman of the executive committee of the People's party of Alabama, has called a meeting of his committee for March 12th, at Birmingham. The candidates on the Robt state ticket last year are also requested to attend. The call states that questions of vital importance will be considered at this meeting.

HUSBANDS will certainly be in demand now since Miss Gould paid three million dollars for her French count. After all, a good husband is a very good thing for a woman to possess, but three millions is a very good price to pay for one. No doubt many Alabama girls rejoice in the fact that it is not always necessary to pay so much to secure a husband, and not many of them are counting on a count.

We acknowledge the receipt of a copy of The Southern States, an illustrated monthly magazine, published by the Manufacturers' Record Publishing Co., of Baltimore, and edited by Wm. H. Edmunds. At the top of the editorial columns, we find this statement:

"The Southern States is an exponent of the Immigration and Real Estate interests and general advancement of the South, and a journal of accurate and comprehensive information about Southern resources and progress.

Its purpose is to set forth accurately and conservatively from month to month the reasons why the South is, for the farmer, the settler, the home seeker, the investor, incomparably the most attractive section of this country."

The Southern States is a valuable contribution to current Southern literature, and, under the enterprising management of Mr. Edmunds will result in much good for the South.

RUND'S,
THE PEOPLE'S FIRM.
Anniston, Ala.

1028 Noble St.,

Editor REPUBLICAN:—Please state in your valuable paper that C. A. Gammon & Co., of Anniston, have bought the large stock of Clothing, Hats and Furnishing Goods, damaged by fire, snow and water in the house of W. M. Gammon & Co., of Rome, Georgia.

Their house had to be vacated at once for the contractors. The sale was a forced one and we own the stock at such figures as that we can make the prices, even lower than those which created such excitement in Rome.

Will open in Anniston this week and will notify the people through your columns and give a price list of the stock. The prices made on these fine goods will be ridiculously low.

Yours truly,
C. A. GAMMON & CO.,
Anniston, Alabama.

ANNISTON in her desire to become a county site should not lose sight of the fact that a girls industrial school will be located in Alabama at an early date. A state institution of this character would be worth more to Anniston than a court house, and we are willing to help her secure it. We look upon her as an ideal place for the location of such a school.

If the young men and women in this section of Alabama who expect to teach school and who desire a better education than they can obtain in the public schools, will come and complete the course of the Jacksonville Normal School, they will never regret it. The graduates of this school secure good places and command splendid salaries.

THE REPUBLICAN made reference some weeks ago to the Rev. Anna H. Shaw, who at that time was visiting the city of Atlanta, and incidentally cited some peculiar characteristics of that revered lady. She was in Washington last week, and assisted in "preaching the funeral" of the negro Fred Douglas. Whether she is drifting, or one white woman stooped so low as to marry this negro, and others, as if in sympathy with her degradation, are weeping with her at his bier.

The winds of silver are whistling merrily in the Northwest now. By and by they will gather strength in the East, and with velocity increased, will sweep on towards the South. Here they will be met by a powerful Southern silver current, and then—the whirl, the twist, the cyclone. Ah! then let the perceptive single standard tremble, and let monopolies—its devilish creations—quake, for they shall be torn by the roots from the soil of American freedom, which their foul growth has so long impoverished and polluted.

While Senator Mills has been classed among the cuckoos, Mr. Cleveland's plan of issuing bonds has been too much for him, and he demonstrated his disapproval by offering an amendment to the sundry civil bill prohibiting the President from making further bond issues. Indeed, therefore the smallest number of Mr. Cleveland's friends who attempt to defend his second bond issue, by which he has loaned the United States about eight million dollars.

We are glad to note the interest which is now being manifested in working up an exhibit for Alabama at the Cotton States Exposition. It will be a shame if Alabama should fail to be represented at this exposition, and we want to see all the people who feel an interest in Alabama's future development and prosperity go actively to work to arrange for such an exhibit as will be creditable to the state and one that will demonstrate to the world that she has many natural resources than any other in the Union. Such an exhibit can and should be made.

An organization to promote immigration and general development has been formed at Jacksonville, Ala., with Genl. J. W. Burke, president, M. H. Lane, general manager, and J. F. Cook, secretary. Jacksonville is one of the most healthful localities in the South. It is beautifully situated in a picturesque and fertile valley, where there are many thousands of acres of productive lands that can be bought at low prices. It is the purpose of the newly organized Jacksonville Immigration Association to procure the sale of lands in the neighborhood of Jacksonville to Northern farmers on easy terms.—The Southern States.

The platform adopted by the Democratic State convention of Michigan last week has the right financial ring about it. On the silver question, it says:

The Democratic party, in convention assembled, holds with delight the rapidly increasing sentiment in favor of the restoration of silver to the position it so long held in the monetary system of our country, and unqualifiedly declares in favor of the free and unlimited coinage of silver and gold, with full legal tender power, at a ratio of 16 to 1, and we invite every patriotic citizen of Michigan regardless of previous party affiliations, to join us in an imperative demand for immediate legislation to that end, regardless of the position of any other nation with respect thereto.

We are now showing full line of Spring Goods, in prints, domestic and foreign Gingham, Percales, Crepons, Outings & many new weaves in cotton goods.

So far as congress is concerned,
the Democratic party has gone out
of power. It goes out, too, with
two of its most important pledges
unredeemed. It pledged the peo-
ple that it would enact a law to
have both gold and silver coined
without charge for mintage, or
without discrimination against one
metal in favor of the other; and
that it would repeal the prohibitory
ten per cent. on state banks.

With these two planks in its
platform the people gave it control
of all three branches of the govern-
ment. After it had ample time
and failed to redeem these pledges,
it again went before the people, and
received one of the most sweeping
defeats ever given any party.

While the men whom the Dem-
ocratic party placed in power failed
to carry out the pledges of the party,
they did not represent the wishes
of those who placed them in power.
The Democratic party is in favor
of redeeming its pledges.

While the Democratic party is
temporarily in the minority, it is
the party of the people and will
certainly rise again. It is the
party of the constitution, and will
live as long as the government
lives.

Next year it will place aside those
who have proven untrue to the
principles and pledges of the party,
and place before the people as Dem-
ocratic nominees those about whom
there can be no question as to their
position.

The Democratic party has al-
ways been the people's party. It
was founded upon principles which
demanded equal rights, equal
privileges, and honest methods in
the management of elections.

We need to get back to the fun-
damental principles of the party,
and then no party in the world can
successfully meet the Democratic
party in a contest before the peo-
ple.

When congress adjourned last
Monday the newspaper correspond-
ents in the press gallery, to the
number of 200, sang the doxology.
The people in all sections of the
country have taken it up and are
yet singing. Praise God from whom
all blessings flow.

Mr. S. M. Bryan, of the firm of
S. M. Bryan & Co., is considered
one of the most successful business
men in the United States. Mr. Bryan,
at the close of the war, was a
poor man, but by his business tact
and foresight he has been able to
amass a fortune running into the
millions. He has just returned
from a stay of one month in Mex-
ico, and we gladly copy the follow-
ing views which he expressed to a
Constitution reporter, on his return
from that country.

"I took things leisurely," said he,
"very carefully observing busi-
ness and industrial conditions. I
find that Mexico has prospered
during the past two years, when
business conditions in our country
have been clogged, where they have
not been actually going backward.
Cotton in Mexico is selling at 16c
a pound in silver, which is equal
to 8c in cents in our money. I paid
\$7.50 in silver for a suit of robes,
which in this country would have
cost \$10 in gold. A suit of clothes,
a pair of gloves, a hat, or any item
of domestic necessity sells in Mex-
ico for approximately the same
amount in silver that we are re-
quired to pay here in gold. In other
words about half as cheap. This
establishes very clearly to my mind
the absurdity of the argument
about silver being a depreciating
currency. A silver dollar in Mex-
ico will do what is done by a gold
dollar in this country, and it has
been the appreciation of gold—not
the depreciation of silver which
has brought about the disparity. I
found the factories running on full
time and a cotton factory at Orizaba
capitalized at \$3,500,000 was pay-
ing from 20 to 25 per cent divi-
dends. The people are contented
and prosperous, and have not suf-
fered from the general depression
during the past few years. The
truth of the matter is the silver cur-
rency of Mexico has acted as a
splendid protection measure against
outside depression, and as it has
resulted in Mexico, so it would be
in this country if we would imitate
the example of Mexico in this re-
spect, and throw ourselves upon
our own resources."

THERE is a stampede now going
on in the ranks of the cuckoo press.
After awhile there will only be a
few postoffice editors to claim the
distinction of being original cuck-
oos. All the others will be ashamed.
The latest to discover the error
of Mr. Cleveland's policy is the
Alabama Courier. Referring to its
conversion the Opelika News says:
"That part of the Alabama Demo-
cratic press which has refused to
bow down and worship Grover
Cleveland will, of course, welcome
into its ranks the Alabama Courier.
The Courier is a recent con-
vert to the proposition that Mr.
Cleveland's policy is a mistaken
one. Until the last issue of that
paper it has been one of the papers
that was justly dubbed a 'cuckoo.'"
—Montgomery Journal.

THE REPUBLICAN is heartily in
favor of working up a state exhibit
for the Cotton States Exposition,
and is willing to cooperate in any
movement that will be inaugurated
looking to that end. Alabama is
unquestionably one of the grandest
States in the Union, and she can-
not fail to be represented in Atlanta
next fall. Let a state meeting
be called to meet in Montgomery
or Birmingham at an early date and
arrange for an organized effort to
work up a creditable exhibit. We
believe if the proper efforts are put
forth the necessary means to make
a creditable exhibit can be secured.
Let the commercial clubs of Mont-
gomery and Birmingham lead off
in the movement.

ALABAMA will pay into the treas-
ury of the United States, through
the tax on incomes, the sum of \$50,
000. Col. Foster, the collector has
applied to the probate judge in
each county for a tax list, in order
that he may find out who are liable
to this tax. For fear that some of
our friends might be in too great a
hurry, we take this opportunity of
saying to them that they have
plenty of time, as they have to the
15th. of April, in which to make
returns. So all need not speak at
once.

THE brokers on the floor of the
stock exchange, in New York, sus-
pended business at 12 o'clock on
the 4th, and held a jubilee over the
dying congress. Some howled,
some yelled, and even the old gray
heads danced out on the floor and
did the "can can" with a few skirt
dance attachments. This was the
brokers' way of expressing a joy
common to the American people.

TUSCALOOSA will make a strong
effort to secure the Alabama Indus-
trial school for white girls. She
will probably offer the property of
the Alabama Central Female col-
lege, which consists mainly of the
old state capital, the original cost
of which was \$180,000, and upon
which \$35,000 was afterward ex-
pended to adapt it to school pur-
poses.

LESS guano will be used in Cal-
houn this year than for many years.
Our farmers are determined to get
out of debt.

THE adjournment of con-
gress will be passed directing
that a committee of nine, three to
be appointed by the President,
three elected by the Senate, and
three elected by the Speaker, be
appointed to represent the United
States in an international mon-
etary conference. The Senate
elected Mess. Daniel, Jones and
Teller, all of whom are out-and-out
silver men. The House by a uni-
mous vote directed that Speaker
Crisp appoint himself as one of the
members from the House. The
Speaker appointed in addition to
himself, Judge Calhoun, of Texas,
and Mr. Hitt, of Illinois. Speaker
Crisp and Judge Calhoun are
strong silver men. Mr. Hitt, who
was selected by the Republicans,
and recommended to the Speaker,
is said to be friendly to the white
metal. If Mr. Cleveland appoints
three goldbugs, there will still be
five out of the nine who are uncon-
promisingly in favor of the free and
unlimited coinage of silver. The
way in which this committee was
made up does not please the Pres-
ident, but the majority will prop-
erly represent the United States.

THE REPUBLICAN confesses that
it is in somewhat of a muddle.
Last week a neat package came
through the mails, addressed to the
Literary Editor. On opening same
a copy of Edison's Handy Encyclo-
pædia was found. The entire force
was marshalled and a diligent
search was made that this fortunate
creature, to whom the little volume
was addressed might be found. All
efforts at discovery were futile, and,
however much the REPUBLICAN
dislikes to do so, it fears that the
book will have to be returned to
Laird and Lee, Chicago, who so
kindly sent it.

PROGRESSIVE farmers of the North
and West who desire to locate in
the South can find no better place
to purchase lands than in Calhoun
county, Alabama. The editors of
the REPUBLICAN know several
farms that can be bought at a bar-
gain, and will take pleasure in giv-
ing any information to those who
desire to purchase a home in this
section.

From all over Alabama there is
heard the cry, "more corn and less
cotton." Farmers' meetings are
being held in which resolutions are
signed to cut down the acreage in
cotton. Merchants report a de-
crease in the use of commercial fer-
tilizers by one half. We are sure
to make plenty to wear. With
plenty to eat, what will be the mat-
ter with Alabama this time next
year?

It is said that Mobile has a greater
number of men who will contribute
to the support of the government
under the income tax law than any
other city in the state. If this law
had struck Birmingham four years
ago it would no doubt have headed
the list in Alabama, but incomes
in that city are off considerably to
what they were four years ago.

A FARMER from Marietta, Georgia,
states that a new paper mill is being
built there. This recalls the fact
that Jacksonville should have a
paper mill. The pure clear water of
Siber's Lake is especially suited,
and the location is an ideal one.

CROWAN now has a read law sim-
ilar to Calhoun's, and hopes in a
few years to have as good roads as
we have in Calhoun now.

Election Notice.

City of Jacksonville,
Council Chamber.

At a special meeting of the city
council of Jacksonville, Alabama,
it was ordered that a municipal
election in and for said city be
called and held at the county
court house in the city of Jackso-
ville, on Monday, the 1st day of
April, 1895 for the purpose of elect-
ing a Mayor and six (6) council-
men for said city for the ensuing
term of said offices. It was further
ordered that Walter Dean, H. F.
Montgomery and R. L. Vansant
be appointed managers of said elec-
tion and that D. J. Drivet be the
returning officer of the result of
the same.

Done by order of the council on
the 6th day of March, 1895.
JOS. J. ARNOLD,
Mayor.

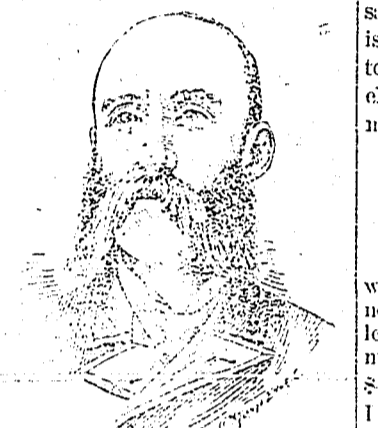

A severe rheumatic pain in the
left shoulder had troubled Mr. J. A.
Loper, a well known druggist of
Des Moines, Iowa, for over six
months. At times the pain was so
severe that he could not lift anything.
With all he could do he could not
get rid of it until he applied
Chamberlain's Pain Expectorant.
"I only made three applications of
it," he says, "and have since been
free from all pain." He now recom-
mends it to similarly afflicted.
It is for sale by dealers.

When she became Miss, she clung to Castoria.

Carle Public Schools, and Their Teachers.

If the question "what class of
society has most to do with the
advancement of our people?" should
be asked, we do not doubt that the
fairer and most just answer
would reveal this being first, to
our Christian ministry, and second
to our public-school teachers.

It is a fact, worthy of the atten-
tion of all our citizens, that the best
index to the moral and mental
character of any community, is the
character of the teachers to whom
they intrust the training of their
boys and girls. Some one has
wisely said that every person with
whom another comes in contact
leaves an impression. Whether it
be a friend at one's home, or a
stranger on the streets, the impres-
sion remains. If this be true, one
can begin to conceive of the lasting
impression that is made upon the
ready mind of the child, by the
teacher who "goes out and in" be-
fore it, each day of its school life.
The mind of the little one, when it
leaves Mother, for the school room,
is indeed like the piece of "clay in
the hands of the potter." It is a
new world into which it makes its
entrance—a world full of wonder-
ful and strange sights and people.
Timidly it looks out for some one
to take Mother's place, to guide
and direct it. Most naturally it
turns to the teacher, and thus con-
fides to him or her one of the greatest
trusts—that of taking the
cause, pure, unadorned, and of the
condition of the child, and putting it
into the strong, noble, courageous
mind of the well developed man
or woman. It is hardly necessary
for the teacher to command, a nod
or beck, answers the purpose. The
child is watching his every move-
ment, listening to his every word,
and we might say fashioning his
or her actions after the example
set by the teacher.

S. J. Robinson, Principal of Boiling Spring School.

It will readily be seen that the
character of the teacher has much
to do with the character of the boy
or girl when they have reached the
age of man or womanhood.
It is necessary, then, that the
citizens of a community should ex-
ercise the greatest care in the selec-
tion of their teachers. They should
see that the teachers are competent,
from an educational standpoint, to
teach, and then they should know
that their words are such as to
have an elevating and refining in-
fluence upon the minds of the pu-
pils.

Calhoun County has much cause
for congratulation. Under the wise
direction of able educational super-
intendents, assisted by the good
work of our State Normal School,
she has raised the standard of our
teachers, and today is doing more
for the training of her boys and
girls than any county in Alabama.
The interest that our public
school teachers take in the best in-
terests of the child in the county,
arose from the desire to improve every
opportunity afforded them, to
enable them to better understand
the training of the youth of our
land. Prominent among these
teachers is S. J. Robinson, the em-
ergent and able Principal of Boiling
Spring School.

The subject of this sketch was
born November 2, 1856, in Cherokee
county, Ala. He afterward
removed with his parents to 13mmt
county, where he was brought up
on a farm, receiving during youth
such instruction as the common
schools of the county afforded.

He taught his first school in St.
Chair county before becoming of
age. Since then he has been teach-
ing and attending school as a pu-
pil till about three years ago.
In 1880 he entered Blount Col-
lege as both pupil and teacher, and
graduated from that institution in
1882.

The success of his teaching is
manifest when it is known that five
different places were anxious to
secure his services last fall.
His school at Boiling Spring is
well attended and the people are
becoming more deeply interested
in education than ever before.

Notice to Teachers.

My next Pay Roll will be for-
warded on the 15th inst., and all
contracts should be sent in previous
to that time. The white Teachers
Institute will be held on the first
Friday and Saturday in April, and
the teachers are requested to be
present at the opening. 10 o'clock,
Friday morning, and remain
through both days. Those who
will not be ready to respond to
their parts in the program pre-
pared by the Institute, and
published in the REPUBLICAN,
should notify the undersigned, by
postal so he may secure others to
take their places. A large attend-
ance is expected as teachers will be
paid off during the Institute. Col-
ored teachers are requested to call
earlier in the week for their pay.

L. D. MILLER,
Co. Supt. Education.

Hood's Sarsaparilla Makes Pure

"My experience with Hood's Sarsaparilla
has been very effective. My little girl, five years
old, had for four years a bad skin disease. Her
arms and hands would break out in a mass of
sores, discharging yellow matter. She would
scratch the eruptions so much that it gave relief,
and then she would bleed.

Two Bottles of Hood's
Sarsaparilla caused the eruptions to heal and
the sores healed, after which the skin
became soft and smooth. As a family medicine
I recommend it." W. L. KIRK, Lind Dale, Tex.

Notice, Cigarette Dealers.

Under an act passed by the last leg-
islature of Alabama, and approved
February 18th, 1895, all dealers in
cigarettes are required to take out
and pay for a license as such dealer.
This license must be taken out on or
before the 1st day of March, 1895.
The license is as follows: In the city of
Anniston, \$37.50; in Oxford, \$22.50; in
Oxman, Jacksonville and Piedmont,
\$15.00, and all other dealers \$7.50.
This is the State and county license
and a license fee of fifty (50) cents
must be added to these amounts.
Those who get their license as soon as pos-
sible and save being indicted for sell-
ing cigarettes without a license.

Attachment Notice.

G. D. Martin vs. J. J. Phillips.
In Circuit Court
of Calhoun county,
Alabama.

Whereas an attachment issued out
of the Circuit Court of Calhoun
county, Alabama, on the 7th day of March
A. D. 1895, against the above named
Defendant, who it appears is a non-
resident of the State of Alabama,
and whose place of residence is Palmy
Georgia, has been by the Sheriff of
Calhoun county, returned to me the
Clerk of said Court, covered by sum-
mons S. B. G. Brothers as Garnishee.
This is therefore to notify the said
Defendant of this issuance and ex-
ecution of said writ of attachment, and
that the said cause will stand for
trial at the next term of the Circuit
Court of Calhoun County, Ala.,
which will convene on the 21st day
of April A. D. 1895 at the place of hold-
ing the same.

Witness my hand this 7th day of
March A. D. 1895.

J. P. WEAVER,
Clerk.

"Perhaps you would not think
so, but a very large proportion of
diseases in New York comes from
carelessness about catching cold,"
says Dr. Syrus Edson. "It is such
a simple thing and so common that
very few people, unless it is a case
of pneumonia, pay any attention to
a cold. New York is one of the
healthiest places on the Atlantic
Coast and yet there are a great
many cases of catarrh and consump-
tion which have their origin in this
neglect of the simplest precaution
of every day life. The most
sensible advice is, when you have
one get rid of it as soon as possible,
by all means do not neglect it."
Dr. Edson does not tell you how to
cure a cold but we will. Take

will relieve the lungs, and expecto-

NOTICE.

Disabled Confederate soldiers, and
the widows of deceased Confed-
erate soldiers, who are entitled to a
part of the State distribution, and who
failed to put in their applications last
year to draw this year, can yet make
applications for their part of the ap-
propriation for the year 1895. They
must be ready to give me the letter
of your company and number of your
regiment, and proof of your disability.
I have not received the neces-
sary blanks, but if you will come be-
tween the first day of April and the
first day of June I will be ready for
you. Under an Act of the Legisla-
ture all disabled Confederate
soldiers making application for a
part of the State appropriation, will
be required to give me proof of their
disability, which proof must sub-
mit to a board of examiners who
will pass upon the application. Any
person entitled to make application
who is not able to come before me to
make the same, will be furnished a
blank, and allowed to make the re-
quired affidavit before a Justice of
the Peace. Please be prepared, and
remember that I am not yet ready for
you, but will give notice as soon as I
get the blanks. I give this notice
because I cannot answer letters on
this subject. Remember now I will
give notice through the newspaper,

New Lung Treatment.

The new lung remedy, discovered by Dr. Copeland and now administered at the Copeland Medical Institute, in deep-seated lung troubles, seems to finally solve the problem of the correct treatment of incipient consumption. It is not only saving lives in Atlanta, but is also restoring hundreds of pale sufferers from lung trouble among our own people, but its remedial potency and the correctness of the philosophy upon which it is based have been abundantly attested in practice elsewhere, and by leading lung specialists in every great city in the country, correct commendatory expressions from whom will shortly be presented to the community. The advantages of the improved treatment are a regular and permanent feature of the Copeland system.

Let it be clearly and distinctly understood that Drs. Copeland and Howland.

Not only treat and cure asthma, but they treat and cure lung troubles.

And they treat and cure catarrhal deafness.

And they treat and cure sore eyes.

And they treat and cure skin diseases.

And they treat and cure nervous diseases.

And they treat and cure epilepsy.

And they treat and cure all chronic diseases.

And all medicines are furnished patients.

And for any and all of these, the price is only \$5 a month.

This offer is good for all patients and diseases.

Take advantage of it now.

By the Copeland Perfected System of Mail Treatment you may be cured at home. Write for information.

Local and Personal.

Miss Manie Ward, has secured a school at Pecks Hill.

Miss Lucie Woodruff spent Sunday at home.

Mr. A. E. Echols, of Rome, Ga., was in the city Tuesday.

Dr. Isaac and family, of Weavers, spent Sunday in town.

Prof. Alexander and family, of Weavers, spent Sunday in town.

Miss Lillie Weems is visiting her sister, Mrs. Cason, in Anniston.

Mr. L. D. Miller, went down to Anniston on Monday.

Rev. D. A. Sox, of Hedlin, was in Jacksonville Sunday and Monday.

Miss Zula Brothers, visited in Piedmont, Saturday and Sunday.

Dr. Camp of Gadsden, was in our city last Friday.

Dr. Jno. F. Rowan and family, returned from New York, Thursday.

On Monday, Joseph Burton, the little son of Judge Burton, of Claburne, was taken back to that county for trial.

The foot bridge on Depot Street opposite the residence of Mr. Vince Weir is in a dangerous condition. The Council should see to it at once.

The barber who skipped a short time since, with several of Barber Greer's tools, has been captured in Talladega county, and Deputy Sheriff Rowland has gone down after him.

Plunk Abernathy, one of the most reliable and trust worthy of our colored citizens, died, at his home, on Sunday evening. Pneumonia was the cause of his death.

Chas. Pinner, the traveling representative of the Simpson Grocery Company, Rome, Ga., was in the city Monday, and paid a pleasant visit to the REPUBLICAN.

Mr. Frank Hutchinson, left Jacksonville on Monday, to take charge of the school at Borden Springs. Mr. Hutchinson is a young man of brilliant attainments and has the best wishes of the REPUBLICAN.

Commissioner M. N. Coker, spent Sunday and Monday in Jacksonville. Mr. Coker is always a popular visitor to our town where he has a host of good friends to welcome him.

Dr. W. A. Skelton went down to Montgomery on last Saturday, and secured the services of Hon. Frank B. Holtz, editor of The Peoples Journal, which will make its appearance next week.

In the Anniston city court last Saturday the jury in the case of W. Henry Davis vs. Hartford Fire Insurance Co. brought in a verdict of \$1,586.86 for the plaintiff. This is the case to collect insurance on stock of goods burned at Iron City.

Oscar Patterson, the young man who is accused of having fired the barn of Mr. Chambers, who lives on the other side of the mountain, was captured by John Rowland, on Wednesday night of last week, and lodged in the jail at this place.

A. J. Tarvin, of Olathe, was in Jacksonville on business, Monday. Mr. Tarvin is a prosperous merchant and farmer of the western part of the country. He is a great advocate of paying more attention to the raising of grain and live stock. He has on hand, for sale, one thousand bushels of corn more than he will need.

J. V. Liles was in town on Saturday last with a wagon load of the sweet potatoes as one could wish to see.

Mr. Liles is a good farmer, and is an earnest advocate of "less cotton, and more corn, pork, potatoes and other food products. He raises quantities of potatoes and molasses, and finds a profitable market for them.

Quite a number of our people were out on Sunday evening to witness the moon's eclipse. While watching her entrance to the shadow, and remarking the darkness that came suddenly over this part of the earth, the idea occurred to us, that if light should break forth, many stories, similar to that of the fellow who kissed his girl in a railway coach as it passed through a tunnel, would be told.

"Cleanliness is next to godliness"—a true old saying in which there is a world of truth. There is nothing that will better show our citizens appreciation of the same, than the use of the white wash brush and the barrel of lime. If an example of cleanliness of its effectiveness be desired we point to the "peppercorn" faces of the young ladies of the country. Take the white wash brush, then, and give the faces of the old houses, the fences, and the tree trunks, a coat of powder.

The graveyard in Jacksonville deserves more attention from our citizens than it gets. It is by nature a beautiful spot, and with a little work each year, aided by the decorating hands of our ladies, it could be made more lovely. Why not all turn out this year, and lend our encouragement to the project of making it one of the most attractive features of our "little city."

The Young Ladies' Institute (Club) met at Mrs. Alexander's, on Monday afternoon. We predict for them a longer life than a similar organization in the state of Georgia. This society across the border in incorporated in its constitution, an article forbidding gossip, the result of which was dissolution before a month had passed. Our society, if we are correctly informed, fosters gossip. A long and happy life is assured.

FROM ALL SECTIONS OF CALHOUN.

GATHERED BY THE REPUBLICAN'S ABLE CORPS OF CORRESPONDENTS.

PIEDMONT.

Some of our enterprising citizens have been gardening, and have a promise of "sauce" in the near future.

Piedmont has been noted in days past for its lovely flowers; every lady almost owning a pit, and feeling great pride therein; but this terribly cold winter has killed almost every thing in that line.

Mrs. Henry Woolf, of Knoxville, Tenn., has been visiting relatives in our city.

Miss Brothers, a charming young lady from Jacksonville, visited Miss Myrtle Algood, Saturday and Sunday.

Mr. William Ferguson paid a flying visit to relatives the last of the week, on his way from Atlanta, to his home in Cal., via St. Louis. He was a prey to the light flaged gentry in Atlanta who relieved him of all superfluous baggage.

Will Harris has accepted a position with the Plant Co., at Port Tampa, Fla., and left for that place a week ago.

T. Ben Kerry a rising young lawyer, went over to Birmingham last week, and was admitted to practice before U. S. Courts.

Miss Lou Elgin is expected home this week. She has been visiting her sister, Mrs. Sherrill, at Hartsville, for a month.

Miss Josie Reid is visiting her cousin, Mayor McClellan, and family.

There is a young lady in our town who is the recipient each week of a box of lovely roses. All the way from Wilmington, Delaware, at that suspicious, isn't it?

Germany and Ireland, represented by Theodore Hoffman and Pat Gasser, had a scrap on the street the other day. Germany wanted some "mountain dew" and thought Ireland would be a good messenger. Ireland hid him away to the shade of one Maxwell, and returned minus whisky and money, reporting that the Philistines had taken upon him and relieved him of his change. Germany was incensed, and blows followed thick and fast. The cloud of war has now passed away, and the sun of peace again sheds his beams.

Two of our worthy citizens, J. J. Roundtree and John Hall, are enjoying the hospitality of the Jacksonville jail, so I learn. More of the blind tiger's work. He is an awful "critter" to be sure.

Dr. W. T. Morgan will locate at North, near Centre, for the practice of his profession.

Dr. Miller, of Gaylesville, was a visitor at the Seminary last week. Mrs. Miller is a boarder there, while she pursues the study of drawing and painting, under the supervision of Mrs. Little.

Miss Joseph Greer, of Knoxville, Tenn., visited her sister, Mrs. Stephenson, at the Seminary last week.

Mr. Frizel has moved into Miss Witherspoon's new cottage at the foot of reservoir hill.

Mr. Hunt will move down from the springs, and occupy the house vacated by Mr. Frizel on Railroad street.

On Saturday night an entertainment, for the benefit of the Methodist Parsonage society, was given at the High school building. Although an amateur performance, the acting was well done, and it was thoroughly enjoyed by the audience. The first play combined pathos and humor, and the last, a farce, kept the audience in a roar. Miss Hunt's recitation, "How he apologized," was enjoyed immensely, and displayed eloquent power of a high order.

Farmers are quite gloomy over so much rainy weather. They are through sowing oats, and very few of them have done any breaking yet.

A number of the farmers in this section will not use any game this year.

I suggest that the citizens of Calhoun county hold a mass meeting at Anniston, on Saturday the 23rd, and see if we cannot get up a good county fair. We, as farmers, need encouragement, and we should have a county fair at Oxford Lake next fall and see what we can do for

oneselves and for old Calhoun.

Now let us put aside all prejudice and come together and have a nice fair, and see if we cannot get up a better feeling among ourselves.

I would like for all your correspondents to express themselves about a fair, and all meet the editors of the REPUBLICAN at Anniston on the 23rd. As the editors of this paper have urged the importance of the fair for several weeks, we know they are for anything that will improve the farming interests, and upbuild our county.

Rev. John Scott, preached an able sermon here last Sabbath.

There are two preachers from Atlanta here this week. They are holding a series of meetings at Riddle's school house. They are known as Separate Brothers.

The farmers in this best are tearing down their fences, as the stock law is in full force.

Old uncle Jerry Histon, a good old colored man, died last night.

Mr. Emerson Scarborough, of Austin, Texas, stopped over two days on his return from New York to visit his relatives in the valley.

Grandma English recently celebrated her 70th, birthday by giving a dining to her children.

Charlie Brooks is going to oversee the roads across the creek, instead of Willie Davis, who has been quite sick.

Len Greer has a cow that has gone mad. She was bitten by a mad dog about one year ago.

Green Brimer has lost all of his hogs. He says they died with quinsy.

Mr. Horton has again taken charge of his saw mill.

LADIES.

The farmers here are very much discouraged; the weather having been so unfavorable, that they have done very little toward making another crop.

Health of this neighborhood is extremely good; do not know of a single case of sickness.

J. M. Savage has had his gristmill at this place put in running order, after a stand still of about three months. He has J. Knight employed as miller.

Mr. Lou Savage, who has been attending school in Jacksonville, returned home last week; he thinks it necessary to build muscle as well as brain, hence he will work the greater portion of the summer on his father's farm.

Mrs. Lore Steward was in Piedmont, the greater part of last week at the bedside of her mother, who was quite sick, but who is very much improved at this writing.

Mr. Daniel Naugher and family of Cherokee Co., were visitors at Mr. William Stewart's last Sunday.

J. C. Graham has been in Birmingham for the last two weeks, having on the grand jury of that county.

D. C. Graham was in Birmingham a few days last week.

BERA-BEAT 4

Good morning, Mr. Editor, and all the correspondents from the greatest even down to Sam Slin.

Mr. H. W. Canada, Sr., who has been confined to his room for the last four years, is now in a critical condition.

We have heard of no one in this section buying, or intending to buy game this year, which we think is a step in the right direction.

We have heard considerable discussion of the bill passed by the recent legislature to have a vote on the removal of the court house, but have not heard an expression from a single man in Beat 4 who favors the removal to Anniston. When the day comes we will vote with Sam Slin for the court house to remain in Jacksonville.

We have a good school at New Bethel, taught by Prof. Irvin Stewart. Also a literary society which meets every Saturday night, and we challenge Esq. Reid, of Morrisville, to come, and bring all the sages from around Morrisville to spell against us.

Married, on the 2nd inst., by Rev. Mr. Bates, Mr. N. T. Scott, of Etowah, to Mrs. N. C. Harrison.

Prof. M. C. Scott, of Calhoun, was a guest of Esq. E. J. Haynie a few nights since. He was here making preparations for a grand singing at New Bethel the 2nd Sunday in April. It is expected that all will bring well filled baskets.

Sunday School at New Bethel has gone into winter quarters we presume, as we have not heard anything of it for several months. Esq. Reid had better look after it.

Success to the REPUBLICAN and its editors.

sonville, in St. Clair County.

Mr. J. B. King, of Esq. Reid and other friends in Morrisville, last Sunday.

BRUNER.

And still it rains.
Rev. W. F. McCain was visiting Rev. R. H. McCain on Tuesday.

Repairing fences seems to be the only work that can be done here now.

Why don't the commercial Clubs push the idea of making more and smaller counties? It seems to us that this would live up things all over the state, and attract immigration.

We should like to have our friends give some idea of cultivating and preparing broom corn for market.

DEARMANVILLE.

Will Forbes, a colored youth of this place, has been indicted by the grand jury for the too free use of pistol at a negro Christmas frolic.

Mr. John Stoval who was nearly blind from granulated eyelids, had them operated on by Dr. Calhoun, of Atlanta, and is recovering his sight.

Mr. L. L. Allen will return, this week, from Florida.

A few days since, a rock was thrown into the East bound G. P. train between here and Oxford. This is not the first occurrence. The last time the rock came near hitting a little girl on the train. It is hoped the scoundrel will be captured.

The grand jury, at Anniston, adjourned yesterday.

Very little is being said here about a vote on removal of court house.

WEAVERS.

The rains prevent farming in this section. Very little plowing has been done.

Sweet potatoes were very much damaged by the recent freeze. Many are rotting and there may be a scarcity of good seed.

Some cotton is being sold here at 5 1/2 cents.

The health of our community is good.

We are somewhat in the center of the county and the political questions of the day are not disturbing our people very much.

Dr. Broadus Dead.

Dr. J. A. Broadus, the great
American Baptist preacher, presi-
dent of the Southern Baptist Theo-
logical Seminary, at Louisville,
Ky., died at his home in that city
on the night of Saturday the 16th,
inst.

Dr. Broadus was a great preacher,
a great teacher and a great writer.
He has preached from the Baptist
pulpit in all the great cities of
America and Europe. As presi-
dent of the Seminary at Louisville
he was known the world over.
As an author he has been a great
favorite, and his "Preparation and
Delivery of Sermons" has been
deemed of such merit as to be used
as a text book by all denominations
in their seminaries, both in this
country and abroad.

The death of Dr. Broadus robs
America of one of her greatest
theologians.

A Greater Man Than the Fourth of July.

Last Sunday was St. Patrick's
Day, and the Sons of Erin had to
postpone what is probably the
most pleasant part of the celebra-
tion, until Monday. The coming
of St. Patrick's day always brings
with it the recollection of the story
so often told of the Irishman who
chanced to land in America on the
Fourth of July. Every one, on
every side, was talking and shout-
ing about the glorious Fourth.
The Irish lad, thinking that they
were celebrating the glory of some
departed hero, grew angry that the
name of the good Saint Patrick was
no where to be heard. Staring at
a hilarious passer-by, he said to him
that he had "a gallon of good
mountain dew whisky," he would
wager, that Saint Patrick was a
greater man than iver the Fourth
of July was."

THE Montgomery Advertiser
and the Birmingham Age-Herald,
wrapped in each others arms, now
slumber peacefully in each others
arms, and over their couch the
golden god, whom both adore,
keeps vigil. What strange bed-
fellows politics sometimes makes!

The Advertiser and Mr. Cleve- land.

In a comment last Tuesday on
the REPUBLICAN's criticism of Mr.
Cleveland, the Montgomery Advertiser
again displays its intolerance
for the man who will not bow the
knees and worship at the shrine of
its little god.

The REPUBLICAN has never failed
to applaud Mr. Cleveland in any
effort which he has made to have
carried out the pledges contained in
the platform upon which he was
elected. Neither has it failed to
censure him when he has given his
influence to defeat the promises
made in that platform.

We have never yet so far lost
confidence in the Democratic party
as to believe that any one man was
greater than the party.

We have never yet renched that
point in hero worship to do as does
the Advertiser. It is dealing with
Mr. Cleveland has adopted the motto,
"the king can do no wrong."

It regards him as infallible. It can
see no wrong in him. It applauds
every act he performs. When he
stopped the coinage of silver in the
United States and thus reduced the
values of all properties in this
country, the Advertiser said he
was right. When by a strict party
vote the Democrats passed a bill
to coin the silver schorage, and
when nearly all the prominent
Democrats in the United States
urged him to sign the bill, and as-
sured him that a veto of it meant
an overwhelming defeat in the then
approaching congressional election,
and he with I-know-all-and-you-
know-nothing-manner turned the
back of his hand to the entreaties
of his party, the Advertiser even
then threw up his hat and said his
god was right, and that Stevenson,
Crisp, Morgan, Oates, and all the
rest of the party were wrong.

Here is one of the instances where
we insist that Mr. Cleveland led the
Democratic party to defeat. It was
so evident that this action on the
part of the President would sweep
the Democratic party out of
power, that Col. Oates left his can-
vass for the nomination for Govern-
or and went to Washington and
pleaded with the President to sign
the bill. With the recollection of
this, it is not strange that Col.
Oates should insist that Mr. Cleve-
land is not a safe leader.

After the Democrats had passed
by a strict party vote the best
tariff bill this country has had for
a quarter of a century, and when
Mr. Cleveland largely destroyed the
benefit which would have accrued
to the Democratic party by refus-
ing to give the bill his signature,
the Advertiser even then bowed
the knee and said Mr. Cleveland
was right. This is another
instance in which we think the
President demonstrated that he is
not a safe leader.

After Mr. Cleveland had made
his secret bond sale and lost to the
United States thereby eight million
dollars, and had been censured for
this secret sale in all quarters by
both Cleveland and anti-Cleveland
men, the Advertiser even then said
he had done the proper thing.

As the Advertiser can see no
wrong in its king, we presume, that
while in the humble churches all
over the land the people bow weekly
and pray for purity of life in those
who are in authority over us, that it
will insist that it is right in the
President to persist in such a line
as will result in the sending out
from Washington such specialists as
this:

"Private advices from one of the
president's party on the Vicer is to
the effect that there has not been
much shooting or fishing, but that
those on the little steamer are hav-
ing a jolly good time of it. They
are to return the latter part of the
week.

In talking about these presiden-
tial junkies, an official who has been
a guest on one or two of them
said today:

"Naturally some of the time of
these little trips is whiled away at
games of cards. Of course it's a
small limit—just enough to add
interest to the game. Gresham,"
he continued, "is the best player I
know. Cardie plays a good game
too, but he is just a little timid.
Gresham plays badly, but discreet-
ly, and is always a winner. Mr.
Cleveland plays a bold game, but
he is excitable and plunges some-
times when the cards are running
against him. Of course in the
little game no one can lose or win
to any amount. But, do you know,
there is nothing that so thoroughly
indicates the character, disposition
and force of a man as a game of po-
ker."

"The Jacksonville REPUBLICAN
is as virulent towards Mr. Cleveland
as if its name indicated its politics?"
—Montgomery Advertiser.

And the Advertiser, on the other
hand, is as servile in its worship of
Mr. Cleveland as if it had been
bribed.

This good people up at Jack-
sonville are getting their dinner up-
too early. We don't intend to
move the clock hands down before
November anyway. They should
keep cool for a few months. The
contest will be hot enough when we
do get into it. —Hot Blast.

The good people of Jacksonville
are perfectly cool. Since they
have had reports from all portions
of the county they have no fear of
the court house being removed to
Anniston.

If reports which come this way
from Anniston be true, our friends
in Anniston are already sick of the
agitation of the question of removal
and realize their defeat.

It is not strange that they should
not want to hear the question men-
tioned for several months.

When the battle of the farmer
which two years ago was worth \$100
is placed on the block by the sheriff
and sold for \$40, it is very clearly
demonstrated what the gold stand-
ard has done for the people of this
country who are in debt. And
what is it that is clear of debt—
Jacksonville Republican.

It's very bad that the poor far-
mer had to sell his mule, but sup-
pose the mule had died and the far-
mer was in the market for another
—could he not buy at 40 per cent
of the price paid a year ago? This
may be only an optimist's view of
the matter. —Age Herald.

O yes, and if the poor farmer's
cotton crop should be a failure, he
could enter the market and buy
cotton at 40 per cent of the price
paid when silver was coined in the
United States.

This argument is about on a par
of all evidence offered in sup-
port of the gold standard.

A severe rheumatic pain in the
left shoulder had troubled Mr. J. A.
Loyer, a well known druggist of
Des Moines, Iowa, for over six
months. At times the pain was so
severe that he could not lift any-
thing. With all he could do he
could not get rid of it until he ap-
plied Chamberlain's Pain Balm.
"I only made two applications of
it," he says, "and have since been
free from all pain." He now recom-
mends it to shudderingly afflicted.
It is for sale by dealers.

THE Salem Times, speaking of
the halting policy which has char-
acterized our party of late, closes
with the following statement:

We have just quit "deliberating"
and are ready for action; but don't
want to "pay the fool," nor do we
wish the democratic party to do so.
We want good money—and a heap
of it; gold, silver, greenback, bank
notes, bonds, etcetera; and if there
is anything better, we'll be satis-
fied with a good deal of that. We
think we vote the majority.

James, then, reason well. The
time for action is indeed come—ac-
cordingly late, it may be, but particu-
larly sure. This policy of "will do-
mest" is a failure, and men who are
free to speak, at ever this country,
take the same view of matters as
that which you express.

A Million Friends

A friend in need is a friend indeed,
and not less than one million people
have found just such a friend in Dr.
King's New Discovery for Consump-
tion, Coughs, and Colds. If you have
never used the Great Cough Medi-
cine, one trial will convince you that
it has wonderful curative powers in
all diseases of Throat, Chest and
Lungs. Each bottle is guaranteed to
do all that is claimed or money re-
funded. Trial bottles free at all
drug stores. Large bottles 50c and
\$1.00. For sale by W. B. Cherry, 1

The defeat of the Democratic
party in the last congressional elec-
tion was due to the effort of party
leaders to force republicanism
on the party. It was not due to a
change of the people as to their ad-
herence to Democratic principles.
The Democratic party is the only
party to which the people can look
for relief from the burdens which
now weigh them down, and in or-
der to bring about the needed re-
forms, it is only necessary for the
men in all portions of the country
who voted with the Democrats in
1894 to fall back into line and place
in power next year men who will
be true to Democratic principles,
and who will faithfully carry out
Democratic pledges.

Any man who can read and un-
derstand the English language can
not fail to see a difference in the
financial planks of the Democratic
and Republican platforms of 1894.
But we would like for some one to
mark a difference between the men
who oppose the free coinage of sil-
ver and the Republican platform.
And we challenge the Montgomery
Advertiser and the Age Herald to
draw a distinction between their
position on silver and that of the
Republican platform of 1894. There
is no difference between a gold
standard Democrat, and gold stand-
ard John Sherman.

Telegraphic messages from Ed-
wardsport say that on Tuesday
evening Judge Box suffered a
stroke of apoplexy, and since then
has been lying at the point of
death.

This is sad news to the people of
Jacksonville and Calhoun county.
Judge Box has been a regular at-
tendant as Judge of the Circuit
court at this place, for more than
twenty years. During that time he
has won the good will of all, and
has established the reputation of
learned and just Judge.

We trust that the tone of the
messages may change before our
next issue, and that we may be
able to report a favorable change
in his condition.

We publish this week, the full
text of the "stock" law which was
passed by the recent legislature.
We have devoted more space to its
publication than may seem proper
to some of our readers. When they
consider, however, the great inter-
est that the thousands of farmers in
Calhoun are taking in the matter,
they will recognize the fact that we
could devote the space to no wor-
thier subject.

Anniston didn't register but
about half of her voting strength
for the municipal election. The
permanent location of Calhoun
county's court house is a question
that will interest every one of us
and not a man's vote will then be
missing. —Hot Blast.

We, however, venture the assertion
that there will have to be a
large importation of voters, before
our sister city will get the court
house.

While we are on the topic, we
will request the Hot Blast to call
upon Mr. Kelley and have him give
the people of Calhoun, his interpre-
tation of the court house bill as to
whether in the election upon the
court house, every elector will be
allowed to vote, or only those who
registered in the last state election.

Sunday School Work.

As previously announced, a
meeting of the executive com-
mittee of the S. S. Association was
held in Anniston last week. The
subject of Text Organization and
the Home Department were dis-
cussed. There were quite a number
of interesting reports made of the
work done in the past. It was de-
cided to try and get a good dele-
gation to attend the meeting of the
State Sunday School Association
which meets at Mobile the last of
April. It was also decided to call
a meeting of the vice presidents
and the executive committee in the
Church of Christ, on 11th St.
near Wilmer, Anniston, Ala. at 11
a. m., Sunday, March 29th.

The grand good work is moving
on and each one of the officers is
urged to be present that his best
may receive the benefit that is sure
to come to all who attend.

Terrible Misery

Helpless With Rheumatism
and Without Appetite

Tired Feeling and Pains Dissoled
by Hood's Sarsaparilla.

"I was in terrible misery with rheumatism in
my hips and lower limbs. I read so much
about Hood's Sarsaparilla that I thought I
would try it and see if it would relieve me.
When I commenced I could not sit up nor even
turn over in bed without help. One bottle of
Hood's Sarsaparilla
so much that I was soon out of bed and could
walk. I had also felt weak and tired all the
time, could not sleep, and obtained no rest
at night. I felt all worn out in the morning.
I had no appetite to eat anything, but Hood's
Sarsaparilla restored my appetite so that I
could eat without any distress, and I have
gained much strength. I have taken five
bottles of Hood's Sarsaparilla and I am as well
as ever." Mrs. S. A. Lofder, Mass., Ohio.

"Perhaps you would not think
so, but a very large proportion of
diseases in New York come from
carelessness about catching cold,"
says Dr. Syrus Elson. "It is such
a simple thing and so common that
very few people, unless it is a case
of pneumonia, pay any attention to
a cold. New York is one of the
healthiest place on the Atlantic
Coast and yet there are a great
many cases of catarrh and consump-
tion which have their origin in this
neglect of the simplest precaution
of every day life. The most
sensible advice is, when you have
one get rid of it as soon as possible.
If all means do not succeed in it,"
Dr. Elson does not tell you how to
cure a cold but we will take
Chamberlain's Cough Remedy. It
will relieve the lungs, and expecto-

obtain a permanent cure. 25 and 50

COUNTY NEWS

FROM ALL SECTIONS OF CALHOUN.

GATHERED BY THE REPUBLICAN'S ABLER CORPS OF CORRESPONDENTS.

How the People Stand on the Removal of the Court House.—See: What Oxford and Beat 4 Have to Say.

CALHOUN'S CORNER NEEDS TO BE LOOKED AFTER.—STOCKRAVE POPULAR IN DEARMANVILLE.—WHITE PLAINS WANTS A COTTON FACTORY.—CHOCOLACCO SETTLES HER DIFFERENCES BY ARBITRATION.

ALEXANDRIA.

Alexandria is gardening this week.

Mr. Lander Green has returned from a short trip to Marietta, Ga. Mr. James Draper, of Oxford, spent a day or two here this week, the guest of his sister.

Mr. John Wakefield, who has been so seriously ill, is much better.

The trains on the L & N road have changed schedule. The south bound train passing here at 10:30 a. m. and the north bound, at 3:30 p. m. One can now go from here to Anniston on the cars, attend to business, and return same day.

Mr. and Mrs. Holland Wakefield spent Sunday in Alexandria.

Messrs. J. D. Ross, and Sam Green spent Sunday at home.

Rev. Geo. D. Harris preached a fine sermon at the Grange Hall, Saturday night.

WHITE PLAINS.

About 75 bales of cotton were sold here last week, at 5 1/2 cts. Anniston buyers came out after it. The little rise will not affect grain trade, nor the acreage of this year's crop, in this section.

We are about to catch the cotton factory fever. We have a fine water power near by, and the subject is being discussed.

If cotton doubles in value when spun into yarn, surely our people ought to manage if possible to spin it, and get the profit.

Now that your correspondents have expressed themselves on the cotton house question, and the county fair, let's see what they think of immigration. If there is any locality in Calhoun county, where any number of farms could be bought, or where any number of new farmers are wanted, let us hear from them; if we have such places and others know of them, we may succeed in catching a colony. A few homes might be bought in this, the very best farming district of the county. We want the very best farmers, and no others.

DEARMANVILLE.

The first corn of the season was planted yesterday.

Will, son of Mr. John Hewett, who suffered all the fall and winter with rheumatism, is now confined with fever, and is in a critical condition.

Since the publication of the stock law in the REPUBLICAN, some of the Antis have become reconciled. The law will carry in this beat without any trouble, although there are a number of land owners near the mountain utterly opposed to it.

There is no doubt that the blue birds, those "harbingers of Spring," were all frozen to death, as not one has been seen since the good weather set in. Just after the cold weather 20 of them were found dead in a hollow log near here.

The tax assessor was here yesterday on his last round.

There is more sickness in this community now than has been for a long time—not many serious cases however.

The removal of the court house question, has been discussed here very little as yet, but the discharge of the jury last week by Judge Lapsly has furnished some amusement. Several of the number were from this beat.

There is still considerable corn in this valley for sale.

MERRILLTON. It is delightful, these last few days of Spring weather. The farmers are very busy improving each shining hour. The peach trees are beginning to bud, and will soon be in bloom. The gardens are receiving their full share of attention, just now, and it is amusing to hear the good natured rivalry, as to who will gather the first salad or vegetables, but that is a long way off yet.

Mrs. Wade, of Cleburne, is visiting her sister, Mrs. Henry Smith.

Rev. Thomas Nisbet will preach the 3rd, Saturday and Sunday in April at Piedmont Springs church, having changed the regular appointment from the 2nd, to the 3rd Sabbath in each month. His services are appreciated very much.

There was singing at Ferdie Nabors' last Sunday afternoon.

BERA.—BEAT 4.

Mr. Oscar L. Haynie, of Bera, visited his father in Alexandria valley, Saturday.

Esq. E. J. Haynie made a business trip to Coldwater this week.

Rev. Wade Vinson, of Bozzer, was a guest, Sunday, of Mr. R. P. Eleanon.

Rev. Noah Stephens, of Central Egypt, preached at New Bethel on the 24th.

Several of our young people went down to Egypt on Sunday evening to attend preaching at Cedar Grove.

Since my last report H. W. Canida, Sr. has passed away. He died on the 14, inst. He was among the first settlers of this county and came to Calhoun when he was a boy, and was 77 years of age at his death. His family had the sympathy of the entire community.

Farmers are making good use of the few days of sunshine.

The bad weather has our roads in a terrible condition.

The health of our community is good at present.

Messrs. Ray, Beard, and the Villa River Lumber Co., are running their mills on full time.

Prof. J. Stovall's school is holding up remarkably well. He is giving general satisfaction.

Every body is still for the court house to stay where it is, and seem anxious for the election.

Born to W. A. and Ella Waddle, a boy.

Messrs. James Harris and Thos. Self spent Sunday in the northern part of the county.

Our flourishing society was entertained Saturday night by Speakers Stovall and Hagan.

CHOCOLACCO.

Our town is very quiet now, farmers are busy in their crops.

Mr. Mathis, of Anniston, bought seventy-three bales of cotton from some of our farmers up the valley, and it is being shipped from this place.

Two of our neighbors had a very peculiar arbitration a few days since. A sold a cow which he kept about six weeks, when he claimed that the cow was mad, and he thought that A should "knock off" something, as he claimed that A had had a cow bitten by a mad dog in his lot, a year or so ago. A claimed that the cow which was bitten was not the cow sold to him, and that the cow which was bitten had never gone mad. They could not settle the matter and therefore submitted it to arbitration. The arbitrators decided that A should refund five dollars to L. Those who sell cows had better be sure and tell the buyer that they do not insure against mad dogs.

Hon. W. C. Scarborough spent two days in our beat last week.

Mr. John Hudson assisted his best girl on the train on last Sabbath. He became so much interested, that he failed to notice the departure of the train, and was carried some distance before he was aware that the train was in motion. In trying to jump from the coach he fell, and had his hands considerably bruised.

Mr. Perry, of Texas, is visiting

relatives in the valley. He has been absent for twenty years.

Mrs. Reynolds has been spending some time with her son in Anniston.

Mr. DeBardeleben has been looking at some iron property in the valley.

Miss Mary Hughes has been visiting her sister, at Edwardsville.

Mr. Parker, of Okfusky, has been visiting friends in the valley.

Rev. M. G. Milligan filled his appointment at the academy last Sabbath.

Mr. C. D. Davis has been quite sick, and is much better.

Mrs. Amy Kelly has had a very severe spell of sickness, but is much improved.

SAM SLIM.

This spring is the most backward, so far, ever known in this country. However, we are in better shape than we were this year twelve months ago. Don't you recollect that the 26th and 27th of last March were two of the coldest days had during the whole winter? We had planted our gardens, and vegetables were up; but they were all killed, and straightway we planted over. Consequently, we have a good start as we had then.

And that freeze knocked the fruit crop into the summer of 1895. Now the fruit trees have reserved their fire, and the prospect for a fruit crop is good. Hence, we have nothing to complain of, but much to be thankful for.

The farmers for the few last days, are literally tearing the ground all to pieces, and it really looks now like they were going to get on a boom. Well, if they do, and boom on hogs and cattle, and peas and corn, and things eatable in general, and touch cotton very lightly, and we are favored with the early and the latter rains, then there will be rejoicing in the camp, and cotton will be worth more than five cents. And will not the farmers show off fine stock, and big corn, and so forth, at the fair at Oxford Lake?

This being an off year in politics, our citizens while resting on the corners, and our merchants while they sit on goods boxes and white and wait on their customers, (I mean wait on them to come,) talk on all manner of subjects; and are as social a set as you see in any town far or near. Some times the court house removal question is sprung, and as it has a little taste of something political, for which they all have a relish, they discuss the pros and cons quite lively. For understand all are not Israel that are of Israel, and although Oxford is a near neighbor of Anniston, many of her citizens for one cause and another, are opposed to the removal. They really can't see the justice in robbing Peter to pay Paul; and more especially when they don't owe Paul anything. They really can't see the necessity of paying taxes to build more court houses and jails when we've got as many as we need, and our taxes are already as high as we feel able to pay.

Some advocates of removal, say the increase in taxation will be very little,—that we will not feel it,—but let me tell you, most of us would feel a very little piece of money if it should slip out of our pockets these days. We are accustomed to carrying so small amounts that if a nickel should slip through a hole in a fellows pocket, his shoulder would almost fly up.

SAM SLIM.

We farmers have gone to work in earnest. We have commenced planting corn, and have just finished sowing oats.

Our Literary Society met again last Saturday night, and was quite a success. We notice from a distance, the Messrs. Scott, from Merrillton, Miss Mary Cross, of Tampa, Mr. Wm. Stephens, and others, of Calhoun Gap, the Messrs. Nisbet, and Augusta Mann, and others, from Tredegar, and John Aderhold, from Jacksonville.

Mrs. Minnie Grace, of Rome Ga., is visiting relatives in our settlement.

Married at the residence of Esq. R. A. Hollingsworth, on the 24th, Mr. N. S. Beard, to Miss Sadie Rich, the esquire officiating. Many good wishes to the happy couple.

C. A. J. Hollingsworth and family visited their parents at Hokes

Bluff, in Etowah county, last Sunday.

Mrs. G. W. Landers, and Miss Pee Rhodes were visiting the family of H. H. Bozzer last Sunday.

MORRISVILLE.

Rev. W. O. Horton filled his regular appointment at Morrisville Methodist church last Sunday, and as usual preached a very able sermon.

Every body regrets the death of Judge Box. He was a good man and his place will be hard to fill.

Born unto Mr. and Mrs. John Morris, a daughter, March 24th.

Your Cane Creek correspondent has advertised his fly killer again. That is all right, but if the weather does not change he will not make much with his machinery, because flies never get fat in cool weather.

Road overseers are pushing to get through with the job. Farmers are needing the attention of laborers just now.

Miss Carrie Morris has recovered from her spell of sickness sufficient to take charge of her school again, to the great delight of all her pupils.

Bad luck to the negro who struck John Ramagano with a sling shot. May full justice be meted out to him.

WEAVERS.

We have had some fine weather for the past few days, and the fresh-plowed gardens, together with the peach and plum blossoms that are out, leads one to believe that Spring has at last come.

Pot-luker is mighty scarce, a few late turnips furnishing the only thing out of which to make it.

Prof. Alexander had a chill last Saturday, but seems to be all right now.

Mrs. J. R. McElreath is still improving, but slowly.

Miss Charlie McElreath is visiting the family of Brother Horton this week.

Mange in horses is prevalent in this community. Can some of the correspondents give us a remedy?

Dr. Ragan, of Alexandria, was in our burg this week.

Road working is now the order of the day. We learn that our overseers will soon have a steam rock crusher to crush rock for the roads.

Rev. T. K. Trotter filled his appointment here last Saturday and Sunday.

Rev. Mr. Liston will preach at the Presbytery church here next Sunday at 11 o'clock.

PEEKS HILL.

The health of our neighborhood is good. The weather is fine and farmers are going to work. Plowing is the order of the day, and our people will soon have the land broken, and be ready for planting.

Our bustling road overseer, Mr. T. J. Palmer, was married on the 24th, to Miss Minnie J. Phillips. Good luck to them.

I do not wonder that Anniston is quiet now on the court house question. She has doubtless heard from the country and has found very few that are with her. When she touches a man to build her magnificent court house, she touches his pocket book, and when she touches his pocket book, she touches his heart. The people in the country are on to you, Anniston. You may say that you only registered half your voting strength, but you would find a single mother's son in Calhoun that believes that any more than you do.

OXFORD.

Early Wednesday morning a fatal accident happened on the Oxford Lake Line. Arthur Jett was the motorman on the car that ran over Robt. M. Jones of Randolph Co. The accident happened near Whiteside station. Chas. Gray was the only passenger, and Jones was walking on the track in front of the car. Jett and Gray state that on the approach of the car Jones stepped to the right side of the track still in between the rails. The motorman rang his bell thinking all the while the man would step off. Jones being intoxicated failed to respond to the bell and the motorman failed to turn off the power and apply the brakes, and poor Jones was run over and horribly mangled. His right arm was ground nearly off at the shoulder joint and the scalp was extensively lacerated. The arm was amputated and the scalp dressed, but he died in 3 or 4 hours after the accident. There is another report that says that the motorman was inside the car boxing with the passenger when the accident happened, and it is an admitted fact the car went some 40 or 50 feet after passing over the man before it was stopped. The coroner came to Oxford and questioned the witnesses, and I suppose heard these conflicting reports, and decided to not hold an inquest assigning as his only reason that the commissioners court had not paid him for inquests previously held.

Now the people of Oxford feel outraged at this condition of affairs. If the coroner will not do his work, he needs to resign or to be deposed. If the Commissioners Court refuse to pay him for his work they ought to give their reasons and let the people know that they repudiate and condemn the coroner and his office. This is a case needing investigation.

Mr. Editor this is not written with any desire to indict the motorman for criminal negligence or to hold the Lake Line responsible for the unfortunate accident. But with the hope that justice may prevail and that no individual or corporation may be accused of a crime by the public without the rights and privileges of a legal investigation by the proper authorities.

DEATH OF JUDGE BOX.

HE PASSED AWAY AT EDWARDSVILLE MONDAY.

In His Death Alabama Loses One of Her Noblest Sons.

Judge L. F. Box died at Edwardsville, at 5 o'clock, on Monday morning. He went there to hold the Spring term of the Circuit Court of Cleburne county. A few days after reaching Edwardsville, he was stricken with paralysis, which caused his death. His remains were taken to Ashville, his home, on the 26th for interment.

To thousands of acquaintances and friends throughout his circuit, and all over Alabama, this will be sad news. Wherever Judge Box went, he always appeared the refined, cultured, honorable Southern gentleman, that he was. In his life, as judge of this circuit, he has impressed all with his love of justice, and great desire to do anything, the doing of which, would tend to improve the minds of our people. It cannot be said that he never erred. This would be attributing to man, the perfection of the Savior; but it can be truly said that, in all his works, he tried to follow, as best he could, the path to which conscience pointed him.

Judge L. F. Box was born in Ashville, St. Clair County, 55 years ago. His father was a farmer, and the son grew up and was given a fair education. He taught school until the war broke out, when he enlisted in Company II, Tenth Alabama, under Capt. John H. Caldwell of Calhoun. He took up the study of law when the war ended and kept it up. He was elected superintendent of education under Governor Houston, and about fifteen years ago was made circuit judge of his district, which position he held until death. He leaves a wife and children.

Perhaps you would not think so, but a very large proportion of diseases in New York comes from carelessness about catching cold. It is such a simple thing and so common that very few people realize it is a case of pneumonia, pay any attention to a cold. New York is one of the healthiest places on the Atlantic Coast and yet there are a great many cases of catarrh and consumption which have their origin in this neglect of the simplest precaution every day life. The most sensible advice is, when you have one get rid of it as soon as possible. By all means do not neglect it. Dr. Egan does not tell you how to cure a cold but we will. Take Chamberlain's Cough Remedy. It will relieve the lungs, and expectoration, and the second and soon effect a permanent cure. 25 and 50 cent bottles for sale by dealers.

Teachers Institute. The white teachers institute of Calhoun county will meet in Jacksonville next Friday and Saturday.

It is desired by the county superintendent of education that all the teachers in the county attend.

Guaranteed Cure. We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs, and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it full trial, and experience its benefit, you may return the bottle and have your money refunded. We do not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Try it bottle free at the drug store. Large size 50c and 25c. For sale by H. B. Arbery.

We are requested by the county superintendent of education to state that he has received the money to pay teachers for the past quarter, and will be glad to have teachers call and get the amounts due them.

City Election. Jacksonville's municipal election will be held next Monday. While there are three tickets in the field, there is but little interest being manifested, and we are confident that the election will pass off without any unpleasant feelings being engendered over the contest.

New Doctors. Calhoun will soon have two more promising young physicians in her bosom.—Dr. J. E. Whitesides, of White Plains, Dr. Buckalew, of De Armanville. Both will go before the county board of medical examiners at an early date, and stand at an examination for license to practice in Alabama.

When Baby was sick, we used Dr. Carter's. When it was Croup, who used Dr. Carter's. When it was Croup, who used Dr. Carter's. When she had Children, she gave them Carter's.

There will be no morning services at Presbyterian church on Sunday—services in the evening.

Senator Morgan is strongly in favor of the annexation of Cuba. He thinks the United States should purchase the island from Spain, or take some other method of acquiring it.

Dr. Mosely of late is talking quite saucy to his Populist friends. He says the Republicans in Alabama will never again support a Populist State ticket, and that the wisest thing for the Populists to do is to come over and join the Republican party.

Ullman Brothers have again inaugurated their sample department, under the management of Mr. W. M. Barker.

Will take great pleasure in attending to any order sent to us for samples.

AFTER THE GRIP, diphtheria, pneumonia, scarlet fever, typhoid fever, etc., Hood's Sarsaparilla is of wonderful benefit in imparting the strength and vigor so much desired.

Hood's PILLS for the liver and bowels, act easily yet promptly and effectively.

We have the greatest respect for the views of brother Smith, of the Hot Blast, on the question of finance, because we know him to be sincere. Years ago he and the writer differed in the policy of a newspaper on the silver question. He opposed and we favored the free and unlimited coinage of silver. Neither has ever changed, and we are sure that each accords to the other honesty of convictions.

On last Sunday morning the first issue of The State, the new Alabama daily, made its appearance at Birmingham. The REPUBLICAN hastens to tender its congratulations. The paper is ably edited, and has an excellent general and state service. The first week's issue reflects great credit on the management, and is a guaranty of popularity and success.

The Anniston Hot Blast in referring to the court house removal law, very unwittingly says, "Fortunately, Anniston holds the key to the situation. She can virtually name the time for the election, etc." Brother Smith has always been justly regarded as both discrete and sagacious, and we have generously accorded to him this distinction. But if, by the above assertion, he expects to enlist recruits, for his snail's scheme of court house removal from among the people who have been utterly and defiantly ignored in the legal methods dictated by Anniston for accomplishing her aims, we must suspend our judgment, at least as to his fitness for inaugurating and conducting this, Anniston's greedy and unrighteous crusade against the rights of the people of Calhoun county. If the above is a sample of the tactics he proposes to employ in securing removal, we heartily say, "Lay on MacDuff," and intensify the indignation of the people, already fully aroused by the provisions of the law, which deprives them, as tax payers, of any voice in ordering an election, and takes away the safe guards of registration and contest, thrown around the sanctity of the ballot by the general law of the State.

I Will Let You Pay in Money or Cotton.

I have two good mules for sale. Will wait for settlement till fall, and will accept payment in money—silver, gold, or greenbacks—or cotton, at purchasers option. If you want a mule come at once.

SATURDAY MAR. 30, 1895.

THE REPUBLICAN.

Established in 1837, is the OFFICIAL JOURNAL of Calhoun, one of the largest and wealthiest counties in Alabama, and in which are located the towns of Jacksonville, Anniston, Oxford, Oxasima and Piedmont.

CIRCULATION.

It has a larger guaranteed county circulation in Calhoun than any other paper.

TO ADVERTISERS.

The subscribers of the REPUBLICAN are the best people in the county,—a class of people with whom it pays to advertise. Than it there is no better advertising medium in this section of Alabama.

THE REPUBLICAN.

Consistency—a Jewel.

"There are none so blind as those who will not see." How aptly and forcibly does this truism apply to some of our self constituted oracles in finance and political economy at the present time. With experts views on all public questions, in the blind zeal of unreasoning egotism, they obstinately assume that those who dare to differ with them are heretics and ignoramus, deserving only of unmeasured denunciation and scorn. Strangers to tolerance and conservatism, in the enthusiasm of a slavish devotion to men and unorthodox measures, they too often transcend the limits of consistency and leave their friends the fruitless task of trying to define their position and ascertain "where they are at." How apropos is this of the Montgomery Advertiser. Claiming to be a democratic organ, in one sentence it entertains its readers with a long drawn out philippic on the 33rd Congress, a majority of the members of which are democrats, for doing what it believed to be its sacred duty to a confiding constituency, and in the next sentence, regales its devotees with fulsome praise of a democratic executive to whom it has been "bending the pregnant hinges of the knee," just before and since the dispensation of federal patronage, and executive favor began. In the fullness of official preferment, and the obligation of loyalty to the generous dispenser, thereby imposed, the Advertiser stands with unsheathed sword, and challenges the democracy of any partisan who has the temerity to intimate that President Cleveland has not been faithful to his party pledges and the popular trust reposed in him. It is the essence of genuine party loyalty to denounce the combined wisdom and patriotism of a democratic congress, but the sublimity of party treason to criticize, in even a respectful way, the acts of a democratic President, who has failed or declined to give his influence or signature to the statutory embodiment of a single pledge of the platform of the democratic party.

It is true that congress did but little, it is true that it could do but little, for the relief of the people, confronted as it was with executive antagonism. But he it said to its credit, that it prevented much from being done through the President's recommendation, for their absolute enslavement to the pitiless despotism of aggressive capital.

For this much we say to our Alabama congressmen who did what they conscientiously believed to be their duty, "well done good and faithful servants."

When public officials who, under our form of government, are the servants of the people, rise beyond the reach of just criticism and become, in their official characters, too sacred for popular censure, the Goddess of Liberty, veiled and in mourning, will have taken her everlasting departure from the "asylum created for her by the fathers of our republic, and embalm it in song and in story as the "land of the free and the home of the brave."

The democracy of this paper is measured by the principles boldly declared by the people in the democratic convention assembled in Chicago in 1892. And when any official, be he President of the United States or bailiff of a country beat, departs from these principles, or fails to use his influence to carry out the pledges of the Democratic party embodied in these principles, he can never receive our commendation. Men may change or die, principles are immutable, and never die.

In 1896 the democracy will as-

sert its supremacy over the undemocratic element now trying to destroy it and "over" republicanism, populism, and all other isms, in lineal and hostile to our institutions and the theory of our government, achieve a victory that will be an assurance of peace, prosperity and happiness to all the people.

Here's Your Cotton.

Cotton statistics (says the Times Democrat) reveal the following curious conditions of things, as regards the question of overproduction:

Crop of 1889-91	7,300,000
Crop of 1890-91	8,600,000
Crop of 1891-92	9,000,000

Total of triennial crop	24,900,000
Crop of 1892-93	6,700,000
Crop of 1893-94	7,700,000
Crop of 1894-95 (say)	10,000,000

Total of triennial per'd 24,400,000

In view of the fact that the production for the second triennial period has been 500,000 bales less than for the first it will be difficult to persuade the farmer that he is responsible for 5 cent cotton. And the question perpetually occurs—"What is the matter?"—Selma Times.

AY, what is the matter? Thousands, in this country during the past fall, as their cotton went at 5 cents, and they settled for advances at the rate of 10 cents for guano, have, with bewildered faces asked the same question. They thought it answered a few days ago, however, when silver made a rise in the markets of the world, and cotton kept beside it. It is the blasting and withering effects of the demonization of this metal, that is the matter. And yet in spite of all this there are those, whose children are scantily clad, and poorly fed, and who themselves have not a pair of breeches that would suffer them to wear a short coat on the streets, who are still found, "hugging that delusion phantom" of monometalism, with which the powers have hypnotized them.

Silver to the Front, Cotton a Close Second.

In the sanguinary war which is now about to be concluded between China and Japan, the latter as the victorious party, demands of China as one of the conditions of peace, an indemnity of \$250,000,000. Both China and Japan are silver using countries, and the reasonable hypothesis is that the indemnity will be demanded in silver. The commercial world, always sensitive to financial measures, and even to financial possibilities, has given unmistakable evidence in the advanced prices of staple agricultural products, of the beneficial effect that will result in the enhanced value through an increased demand for silver. As goes silver, so goes cotton, corn, wheat &c.

The Daily Financial News of New York, of the 19th, inst., under the caption of "Silver Booming," says:

"We have stated that there would be no material improvement until silver advanced. Silver has now taken an upward step, and already the eyes of traders are upon it, and we shortly expect it to become one of the active speculators on the exchanges. Every advance in silver means a considerable benefit to cotton, wheat and our other commodities. Silver has only begun to improve. It is the cheapest, safest and best investment that we know of."

When the people begin to learn that there is not alone an insatiable amount of gold, but also of silver to supply a basis money, then there will be a scramble for silver that will soon put its quotation beyond \$1.29 per ounce. Now is the time to buy it."

It is time that the United States should call a halt to the encroachments which England threatens to make upon American territory. For the expulsion of a representative by the little state of Nicaragua, she claims a cash indemnity, and threatens invasion of Nicaragua. She is trying to advance the limits of her territory and threatens force. The United States cannot stand still and see England disregard the Monroe Doctrine, which declares that there must be no advance of monarchy in America, nor any extension of monarchical governments. England's whole history so far as her foreign policy is concerned, is one of rapine plunder, and oppression. She is a political octopus, whose rapacious belly is never full, and whose long arms are ever reaching for new victims. Her further extension on American soil is dangerous to American institutions, and the United States as the most powerful nation on this continent, should protect these central and South American states from her greed.

THE CURRENCY A LIVE ISSUE.

The answer in England to all suggestions of binetism is that England is satisfied with her existing financial system. It has stood the test of years, and this is held to be a good reason for not changing it.

In Germany also, in spite of the agrarian agitation, the assertion is made that the existing financial system is, on the whole, satisfactory. The same position is taken by a great many intelligent and fair-minded people in France.

In this country the case is different. Our financial system is not finally established. It is not satisfactory in theory. It has not proved itself satisfactory in practice. It is evidently and incontestably in a transition stage.

We have not yet settled the question whether the currency of the country shall be issued by the Treasury or by national banks.

We have not settled the question between gold monometalism, silver monometalism and binetism.

We are just beginning to talk about settling it.

As long as this is the case the question of the currency is going to be a live issue in American politics. It is a dry and difficult question, but there is no escaping it. It is like the riddle of the Sphinx—we must either answer it or be devoured.

—New York World.

If the above be true, and we do not doubt it, is there any sense in this procrastinating cry of "international agreement"? Let America be for Americans. She is big enough, and strong enough, and great enough to settle this issue with out having the finger of Great Britain or Germany to direct or guide. The world rightly characterizes the currency question as a live issue—one of the very liveliest that has ever entered American politics. The contest which is to follow will be a royal one. Now and then, amidst the struggle, there may be glimpses of monometalism, but free coinage and the freedom of the common people are inseparable in this country, and in their favor will the tide of battle turn.

Governor O'FERRILL, of Virginia, entertained last week at his mansion a legislative committee from Massachusetts. Among the number was a negro. He was introduced to Mrs. O'Ferrill in the parlor and went out with the other members of the committee to Luncheon, over which Mrs. O'Ferrill presided.

For this Governor O'Ferrill has been censured severely. While he made a mistake in not positively refusing to this entertain a negro even in his official station, it is due him to state that when he invited the committee to the mansion, he had no intimation that a negro was a member of the committee and knew nothing of it until he met him in his parlor.

Governor O'Ferrill, like all others in the South, draws the line on the negro at the social circle, and no matter how courteous it may have seemed, ought to have declined to invite this negro to his dining table.

Congressman Howard and Representative Manning have disgraced themselves. The letter which they prepared in New York last week, and issued to the Press, in which they attack the honor of their parent state, Alabama, is enough to forever damn them in the eyes of decency. It was alike characterized by a lack of patriotism and a lack of brains. What their object was no sane man can see.

What the result has been they realize by this time. They will come back to Alabama, contemned to despised by the people of the East, and loathed by the citizens of their state. Suddenly elevated to positions of honor, they have overrated their importance as well as their ability. Their "vaunting ambitions have over leaped themselves and fallen on the other side."

SILVER goes up, and cotton the great staple of the South—true as the needle to the pole—follows it. Gold goes up and cotton goes down. There it is. Are you living in the South? Well what on earth is the matter with you? The President has distributed all the post offices and a Mergenthaler Linotype is "plumb" out of your class.

SINCE the REPUBLICAN published the stock law bill for Calhoun county last week, it has been the theme of discussion among the farmers of the county. Some are pleased with it, and others very much displeased with it.

Let the farmers of the county commence now to plan for their exhibits at the county fair next fall. Let us have at Oxford Lake the finest exhibit ever made by any county in Alabama.

COUNTY FAIR.

THE OXFORD LAKE LINE TAKES THE INITIATIVE.

President Howard W. Sexton Wants Suggestions From Farmers of Calhoun and Adjoining Counties as to a Fair to Be Held Next Fall.

Next fall the Oxford Lake line will give an exhibition of farm stock poultry and farm products raised in Calhoun and adjoining counties, and that it may be most beneficial and attractive to the farmers, ask their cordial co-operation.

To that end it requests letters from them giving their views as to the features that should be given prominence, the plans that should be adopted and the time to hold it.

While the Oxford Lake line will offer cash premiums for the best display in their various classes, owing to the expense necessary in providing buildings, etc., these premiums, as a rule, will not be large the first year.

But the farmers should bear in mind the fact that the greatest prosperity among farmers is to be found in counties where fairs and institutes are regularly held, and that it is the desire to excel and the observation of methods employed and results obtained by others that give the greatest real value to these fairs.

Address Howard W. Sexton, President Oxford Lake Line, Anniston, Ala.

But a short while ago, and there were two daily papers in Alabama, the one at Birmingham, the other at Montgomery—the Age Herald and the Advertiser—who never referred to each other in any but unfriendly terms. To-day these two dailies are constantly throwing kisses, each at the other. Now that is queer. The Age Herald is having a new dress made, and may be the "old lady" in Montgomery is suddenly in love with her, because it will be fashioned after her own frock and purchased of the same tailor. Lucky indeed, would the Age Herald be, if she could only get a post-office thrown in!

WHAT say the Democrats of Calhoun county who believe in the free and unlimited coinage of silver to the organization of a Binetism League? There is no question but a majority of the Democrats in Alabama favor the free coinage of silver, but in order to carry the State next year they must organize. Let us hear from the silver men in all portions of the county as to the advisability of such an organization.

It will be a shame if Alabama is not represented at the Cotton States Exposition, and if no greater interest is manifested than at present, the State will not be represented. But let us hope that the meeting in Birmingham April 2nd, will be largely attended, and that a plan will be adopted which will result in such an exhibit being sent to Atlanta as will show Alabama in natural resources to be the grandest State in the Union.

Are you living in this world without knowing what is taking place around you? Do you want to know what is happening? TAKE THE REPUBLICAN AND CONSTITUTION. BOTH PAPERS ONE YEAR FOR ONLY \$1.25. SUBSCRIBE NOW.

NOW FOR THE EXPOSITION!

A Chance For 4 of Our Readers To Get a Free Pass.

The REPUBLICAN offers a free round trip pass to Atlanta during the Exposition, with a free entrance to the grounds of the Exposition for seven days, to the subscriber who will send us the greatest number of cash subscriptions between March 15th and October 15th, 1895.

Subscriptions to the REPUBLICAN and Constitution will also be counted.

All those who wish to enter this contest, will write the REPUBLICAN we will send a letter giving some valuable information which will aid them in securing subscribers.

The contest closes on October 15th, and the prizes will be issued on any date the winner requires.

Burning Pain

Erysipelas in Face and Eyes

Inflammation Subdued and Tortures Ended by Hood's.

"I am so glad to be relieved of my tortures that I am willing to tell the benefits I have derived from Hood's Sarsaparilla. In April and May, I was afflicted with erysipelas in my face and eyes, which spread to my throat and neck. I tried doctors' treatments and remedies, but there was no permanent alleviation of the burning, torturing pain, peculiar to this complaint, until I took Hood's Sarsaparilla and

before I had finished the first bottle. I continued to improve until, when I had taken four
